

Mercator Science Park

Mercator Science Park is the innovation hub on the university campus, surrounded by Radboud University, Radboudumc and HAN University of Applied Sciences. Here, scientific knowledge results in societal impact and innovations in the areas of Health and High Tech – often together with companies and citizens. From bio-diversity to mental health, from nanotechnology to the operating rooms of the future.

- 75+ companies
- ±10,000 employees
- Mercator Launch for starting entrepreneurs
- ReShape Innovation Center
- Research institutes like HFML, FELIX, Max Planck Institute for Psycholinguistics and Donders Institute for Brain, Cognition and Behaviour
- Partner of Briskr Health and High Tech generator

Novio Tech Campus

Knowledge, business and innovation come together at Novio Tech Campus. Once a Philips-site, nowadays a varied High Tech ecosystem where world-class chip companies are working together closely. At the same time, this High Tech knowledge is applied to innovations in the areas of Health and Lifesciences.

- 70+ companies in Health and High Tech.
- 3,400+ employees
- Home to world-class chip companies: NXP Semiconductors, Ampleon and Nexperia.
- Residence of network organisations: Health Valley Netherlands and BCSEMI NL.
- Partner of Briskr Health and High Tech generator

Enzyre's biochip: High Tech in Health

"By settling on Novio Tech Campus we got in touch with crucial partners of Business Cluster Semiconductors, like NXP, Sencio and EPR. Through the guidance of this ecosystem, and financial support of the province of Gelderland, we realized our innovation: one biochip, the size of a creditcard, containing multiple coagulation tests. This biochip enables us to bring the laboratory closer to the patient."

Waander van Heerde,
CSO & Co-founder Enzyre
